**New Animal Drugs for Use in Animal Feeds; Decoquinatate; Correction**

**AGENCY:** Food and Drug Administration, HHS.

**ACTION:** Final rule; correction.

---

**SUMMARY:** The Food and Drug Administration (FDA) is correcting a rule that appeared in the **Federal Register** of December 5, 2002 (67 FR 72370). The rule amended the animal drug regulations to reflect approval of a supplemental new animal drug application (NADA). FDA is correcting the range of approved concentrations of decoquinatate Type A medicated article that may be used to make certain combination drug Type C medicated feeds for cattle. This correction is being made so the decoquinatate regulations accurately reflect previously approved concentrations. This document corrects those errors.

**DATES:** This rule is effective [*insert date of publication in the Federal Register*].

**FOR FURTHER INFORMATION CONTACT:** George K. Haibel, Center for Veterinary Medicine (HFV-6), Food and Drug Administration, 7519 Standish Pl., Rockville, MD 20855, 301-827-4567, e-mail: ghaibel@cvm.fda.gov

**SUPPLEMENTARY INFORMATION:** In FR Doc. 02-30863, appearing on page 72370 in the **Federal Register** of December 5, 2002, the following correction is made:

§ 558.195 [Amended]

1. On page 72372, in § 588.195, in the table in paragraph (e)(2), under the “Decoquate in grams/ton” column, in the entries for (iii), (iv), and (v), “13.6” is amended to read “13.6 to 27.2”.

Dated: 03-25-03  
March 25, 2003.
