May 25, 2000

Dear Commissioner Henney:

Our food supply and the organic agriculture standards are in danger. I urge you to classify the following 3 items as PROHIBITED, "Synthetic" substances, thereby BANNING them from use in organic agriculture:

1. Genetic engineering
2. Irradiation
3. Sewage sludge.

I consider this of utmost importance for the health of our nation and others.

Thank you.

Sincerely,

Jane B. Patterson
