RE: Docket No. 97N-0217 (Request for Comments on Development of Options to Encourage Animal Drug Approvals for Minor Species and Minor Uses)

Through an error on my part, the United Egg Association and United Egg Producers were not listed as signatories to the Coalition for Animal Health's comments, submitted September 8, 1997, to the above-referenced docket. Please accept my apologies for this oversight, and the Coalition respectfully requests that FDA consider the United Egg Association and United Egg Producers as signatories to the Coalition's comments.

The Coalition appreciates your consideration of this request.

Respectfully submitted,

Joe Brandenberger
for the Coalition for Animal Health
