

This completes the briefing information for the upcoming meeting of the Arthritis Advisory Committee. While agency staff have worked diligently in preparing the agency briefing documents for this meeting, please be reminded that findings, conclusions, and recommendations expressed in these briefing documents represent the current opinions of the reviewers and do not, at this time, represent final Agency conclusions. The Agency will consider all available information, including the information reported and advice received at the Advisory Committee meeting, before any final Agency conclusions and regulatory decisions are made on the issues before the committee.
