QUICK SUMMARY
VACCINES AND RELATED BIOLOGICAL PRODUCTS ADVISORY COMMITTEE
Meeting by Teleconference

Meeting # 96: May 8, 2003

The May 8, 2003 teleconference focused on the intramural research programs of the Laboratory of Mycobacterial Diseases & Cellular Immunology (LMDCI), and the Laboratory of Method Development (LMD), Office of Vaccines Research and Review (OVRR), completed on January 7th and 9th, 2003. The Committee heard presentations from the FDA on the Division of Bacterial, Parasitic & Allergenic Products, the Division of Viral Products, the Laboratory of Mycobacterial Diseases & Cellular Immunology (LMDCI), and the Laboratory of Method Development (LMD), Office of Vaccines Research and Review (OVRR). The Committee discussed the research activities of the LMDCI and the LMD. The Committee finalized the Site Visit Reports.
