

Dear Ms. Reese and FDA:

But what will a chemical do for self-determinism? For the land of the free and the home of the brave? For pursuit of happiness? And how did spiritual states of being become chemicals? Just because handy "miracle" chemicals have replaced religion and the human spirit?

Are you not a spiritual being yourself? And would you like a state-policed drug patch to "regulate" your moods, thoughts and awareness. Would you, yourself, like Big Bother Pharma enter **PARASITE ADDICTIONS** into your life?

ADHD is an invented "disorder" for which there is no objective proof except opportunity for theft of money, loyalty, well being. And where are the test scores which show dramatic improvement of scholastic achievement? Profit is not proof of validity. That would make every crime legal. Drug company profits are not a proof that a false remedy is helpful.

A chemical based philosophy of man is a lie, a fraud, a pseudoscience and is yet another onslaught on the basic nature of man. Better to investigate and improve ability, discipline, will power. Better to bring freedom and awareness to children. (These are not even subjects in our materialist "sciences.")

**VOTE NO TO THE STALINIST STATE SPONSORED CHEMICAL SLAVERY OF CHILDREN.** How much profit do we need from the extinction of children?

Do you realize that claimed chemical "benefits" are an attack on you too? You are a spiritual being, are you not? What happens when you have to be reborn into a sea of medical zombies? Refusal to believe "such things" will not protect you.

**STOP THE CHEMICAL ENCROACHMENT AGAINST FREEDOM.**

**DO WE REALLY NEED TO BE "SAFE" FROM THE INNOCENCE OF CHILDREN BY KILLING THEM?**

We used to have a "War on Drugs." Now we have a War With Drugs against children. Unlike those nasty street drugs, how brilliantly evil is state sponsored drug addiction enforced and funded by public money. Brilliantly evil!

**IS NOT THE FDA CHARGED WITH PROTECTING US FROM HARM AND CHEMICAL INVASIONS BY UNSCRUPULOUS CON MEN? (GOVERNMENT AS A FORM OF ARMED ROBBERY?)**

P.S. Faith in the material nature of man is a religion, not a science. And do we not have the doctrine of separation of church and state for the very good reason that freedom of truth has been attacked by earlier practices? The FDA, I believe, is a defense service against criminal insanity. Please, fortify yourself, say no.

Sincerely,

Russell Salamon
