

Bibliography of Literature For Panel Meeting 7-18-08

Ward PCJ. The CBC at the turn of the millennium: an overview. *Clin Chem* 2000;46:8(B):1215-20

Morris MW, Davey FR. Basic examination of blood. Table 24-2 Potential causes of erroneous results with automated cell counters. p 499 (from Cornbleet J: spurious results from automated hematology cell analyzers. *Lab Med* 1983;14:509 (with permission). Table 24-4 Ninety-Five percent confidence limits for various percentages of blood cells of a given type as determined by differential counts. p 509 (Courtesy of Prof. C. L. Rumke). Table 24-5 Normal leukocyte count, differential count, and hemoglobin concentration at various ages. p 509 (from Rudolph AM, Hoffman JIE (eds): *Pediatrics*, 18th ed. Norwalk, CT, Appleton & Lange, 1987, pp 1011 and 1012) In: Henry JB (ed): *Clinical diagnosis and management by laboratory methods*. Philadelphia, PA. Saunders, 2001

Dotson MA. Multiparameter hematology instruments. Chap 42. pp 519-50 In: Stiene-Martin EA, Lotspeich-Steininger CA, Koepke JA (eds): *Clinical hematology. Principles, procedures, correlations*. 2nd ed. Philadelphia, PA, Lippincott-Raven, 1998

Miers MK, Exton MG, Chapman DH. Cell counting instrumentation. Chap 40 559-88. In: Rodak BF. *Hematology. Clinical principles and applications*. 2nd ed. Philadelphia, PA, Saunders, 2002

Center for Medicare and Medicaid Services. CMS certificate of waiver and provider performed microscopy procedures pilot project January 28, 2003.

Available at <http://www.cms.hhs.gov/CLIA/downloads/ppmpfr2001.pdf> (Last accessed June 12, 2008)

Centers for Medicare and Medicaid Services. Certificate of Waiver Laboratory Project; Questions and Answers for on Site Visits of CLIA Certificate of Waiver Laboratories.

Available at

http://www.cms.hhs.gov/CLIA/08_Certificate_of_%20Waiver_Laboratory_Project.asp#TopOfPage

Centers for Disease Control and Prevention. Good laboratory practices for waived testing sites; survey findings from testing sites holding a certificate of waiver under the Clinical Laboratory Improvement Amendments of 1988 and Recommendations for promoting Quality Testing. *MMWR* 2005;54(No. RR-13):1-25

U.S. Food and Drug Administration. Guidance for industry and FDA staff: Recommendations for Clinical Laboratory Improvement Amendments of 1988 (CLIA) waiver applications for manufacturers of in vitro diagnostic devices. Document issued on: January 30, 2008.

Available at <http://www.fda.gov/cdrh/oivd/1171.pdf> (Last accessed June 12, 2008)
