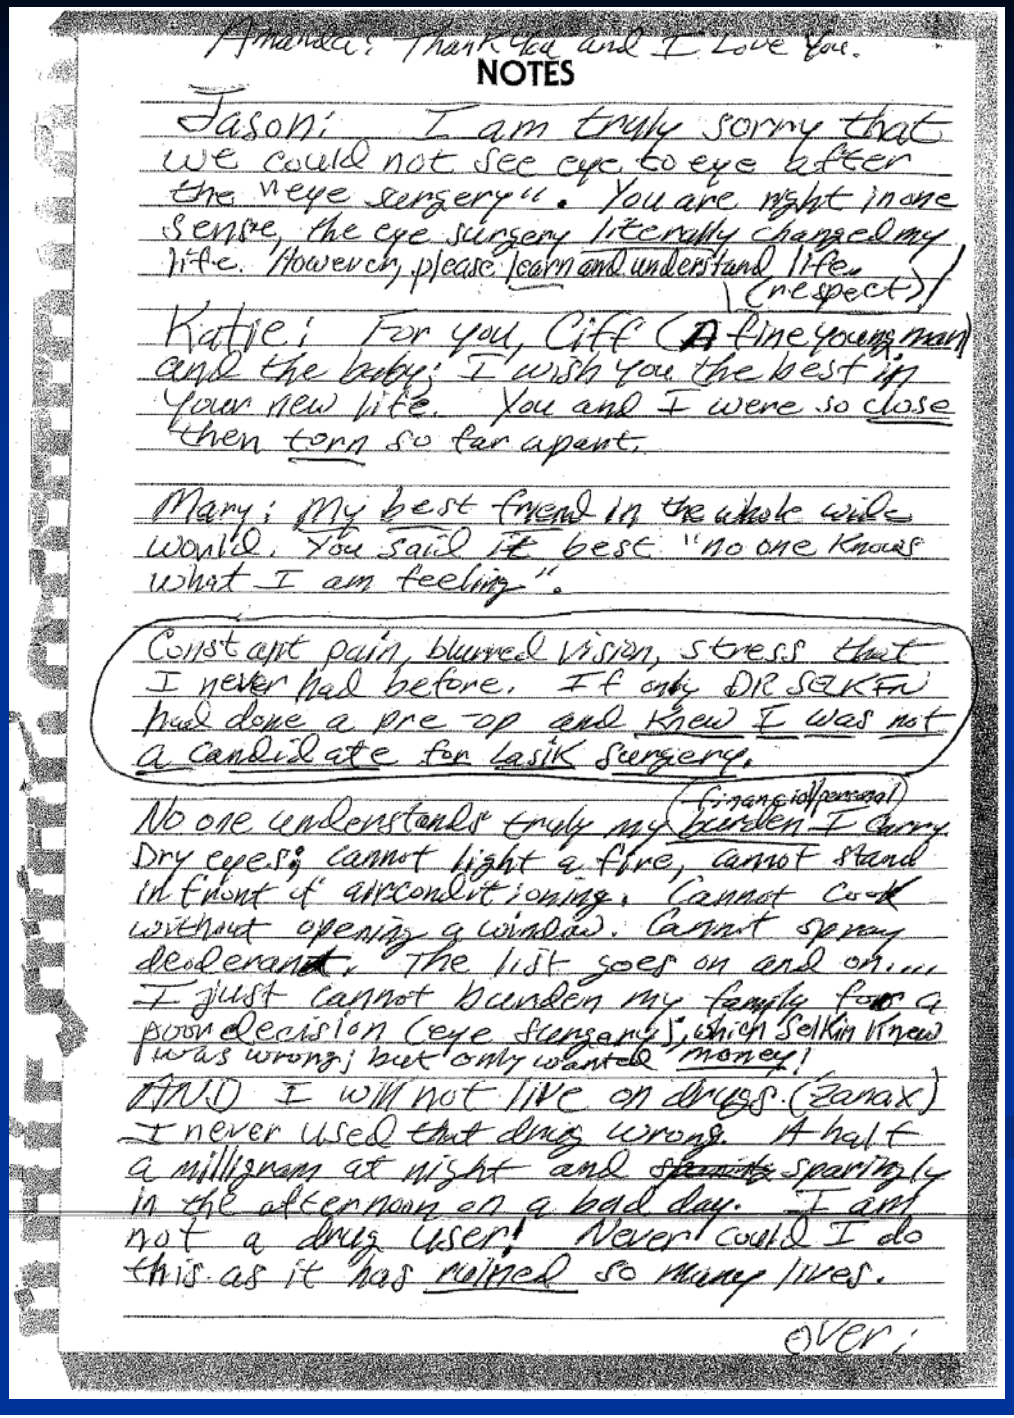
Mr. Campbell took his own life.

He could no longer bare to live with his results of LASIK surgery.



Amanda: Thank you and I Love You.

NOTES

Jason: I am truly sorry that we could not see eye to eye after the "eye surgery". You are right in one sense, the eye surgery literally changed my life. However, please learn and understand life. (respect)

Katie: For you, Cliff (A fine young man) and the baby; I wish you the best in your new life. You and I were so close then torn so far apart.

Mary: My best friend in the whole wide world. You said it best "no one knows what I am feeling".

Constant pain, blurred vision, stress that I never had before. If only DR SEIKIN had done a pre-op and knew I was not a candidate for LASIK surgery.

No one understands truly my (financial/personal) burden I carry. Dry eyes; cannot light a fire, cannot stand in front of airconditioning. Cannot cook without opening a window. Cannot spray deodorant. The list goes on and on.... I just cannot burden my family for a poor decision (eye surgery), which SelKin knew was wrong, but only wanted money!

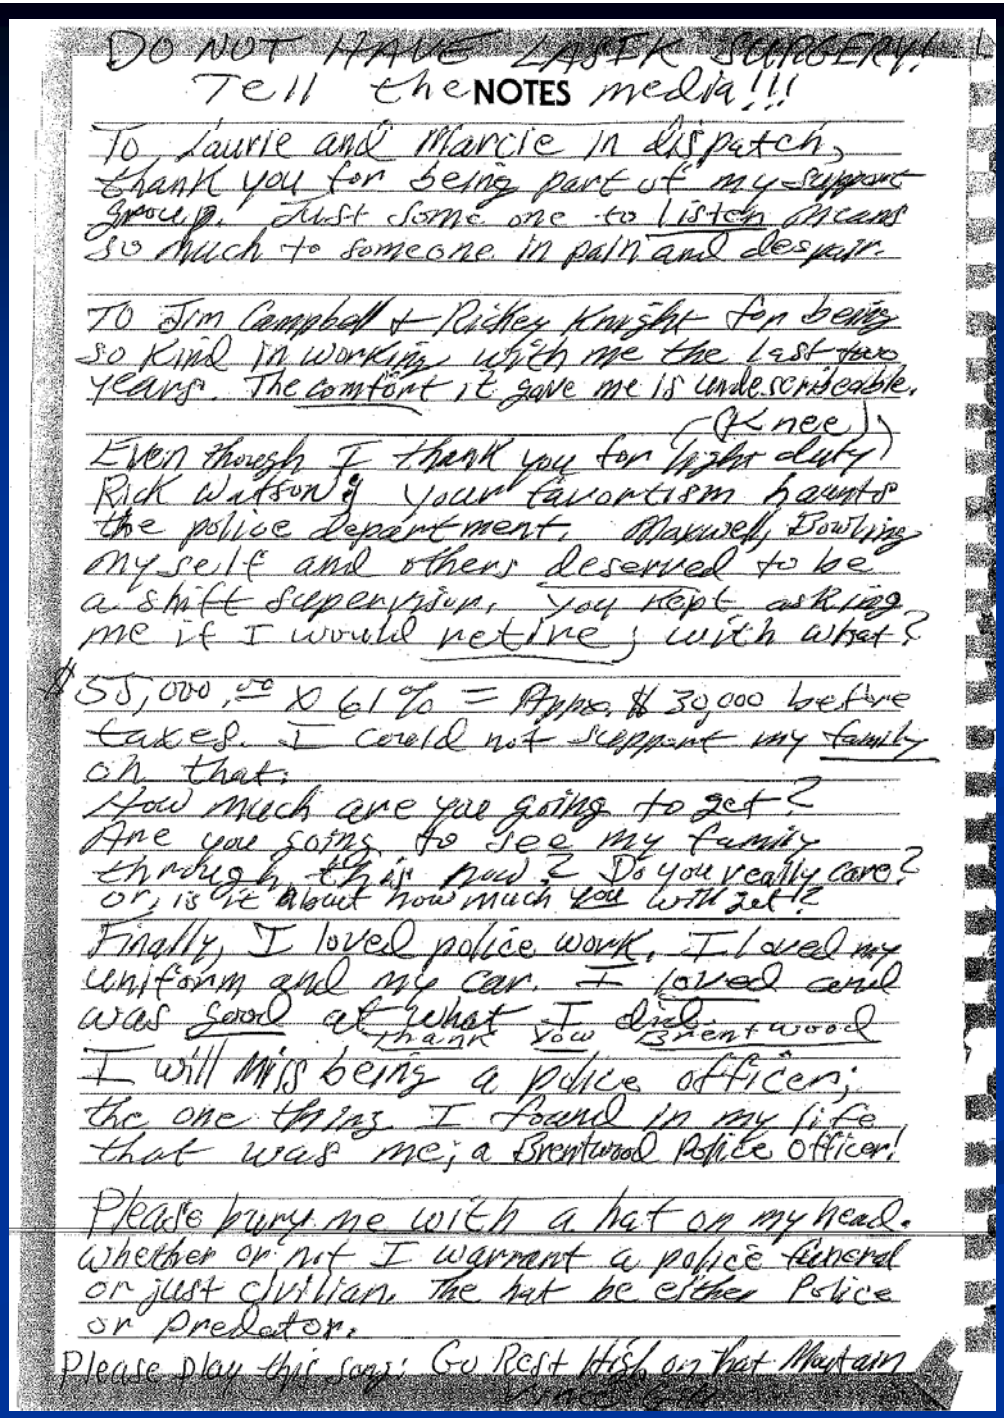
AND I will not live on drugs. (Zanax) I never used that drug wrong. A half a milligram at night and sparingly in the afternoon on a bad day. I am not a drug user! Never could I do this as it has ruined so many lives.

over:

In his suicide note, he warns:

“DO NOT HAVE LASIK SURGERY!”

“Tell the Media!!!”



DO NOT HAVE LASIK SURGERY!
Tell the media!!!

NOTES

To Laurie and Marcie in Dispatch, thank you for being part of my support group. Just some one to listen means so much to someone in pain and despair.

TO Jim Campbell & Richey Knight for being so kind in working with me the last two years. The comfort it gave me is undescribable. (Knee)

Even though I thank you for light duty Rick Watson & your favoritism haunts the police department. Maxwell Bowling myself and others deserved to be a shift suspension. You kept asking me if I would retire, with what?

$55,000.00 X 61% = Appx. $30,000 before taxes. I could not support my family on that.

How much are you going to get?
Are you going to see my family through this now? Do you really care? or, is it about how much you will get?

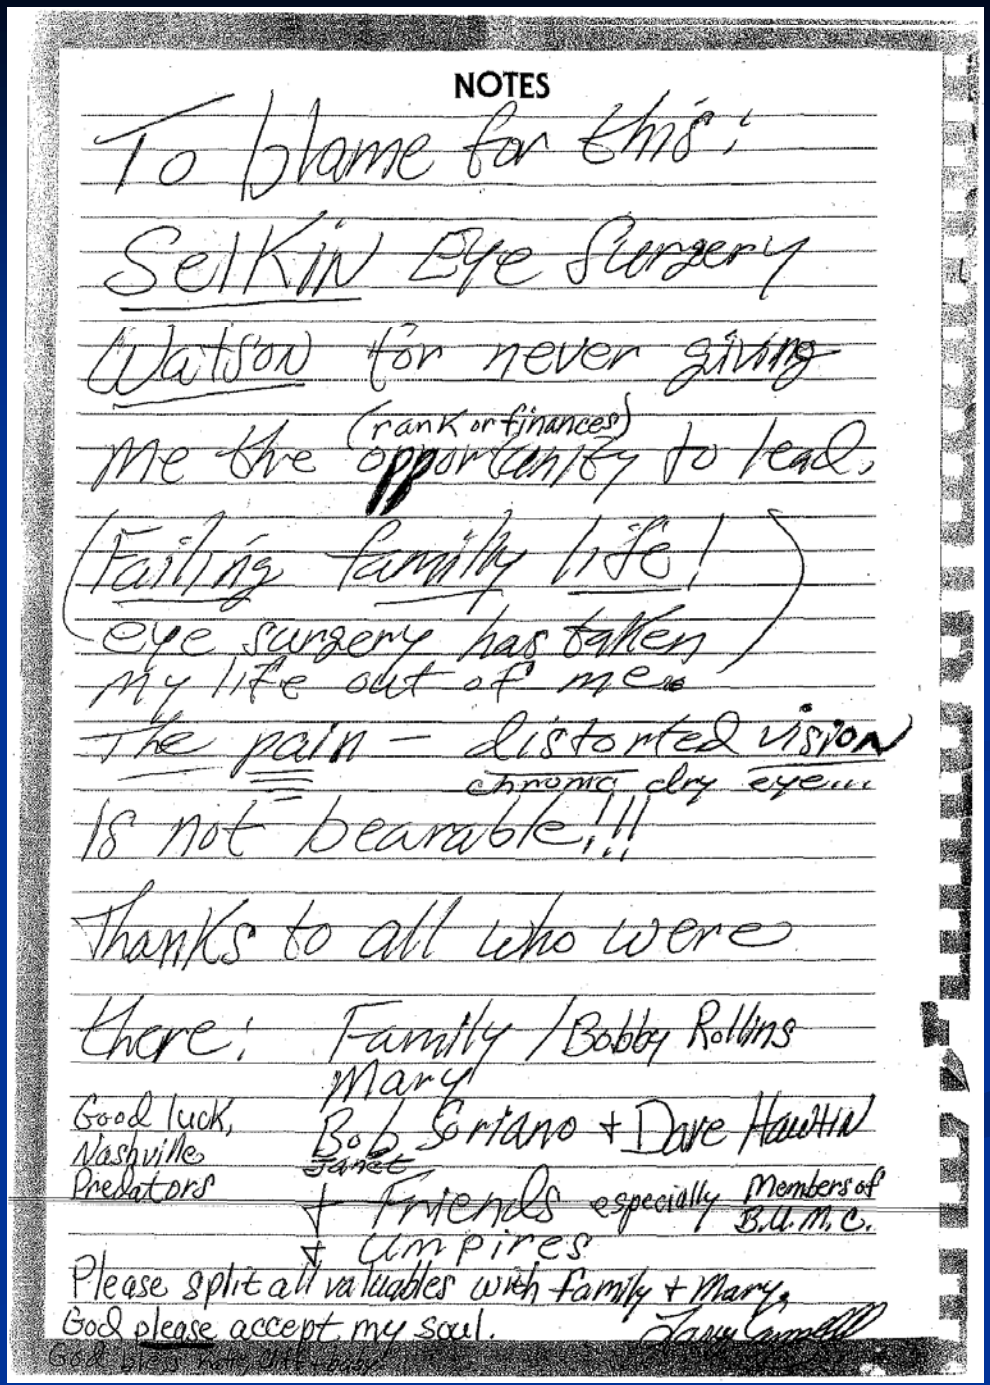
Finally, I loved police work. I loved my uniform and my car. I loved and was good at what I did. Thank You Brentwood

I will miss being a police officer, the one thing I found in my life that was me, a Brentwood Police Officer!

Please bury me with a hat on my head. whether or not I warrant a police funeral or just civilian. The hat be either Police or Predator.

Please play this song: Go Rest High on that Mountain

Mr. Campbell states that the surgeon who performed his surgery is to blame for his ultimate suicide.



NOTES

To blame for this:

Selkin Eye Surgery

Watson for never giving me the (rank or finances) opportunity to lead.

(failing family life!

eye surgery has taken my life out of me.

The pain - distorted vision chroma dry eye...

is not bearable!!!

Thanks to all who were there: Family / Bobby Rollins Mary Bob Janet Sirtano + Dave Hawthe + Friends especially Members of B.U.M.C. Umpires

Good luck, Nashville Predators

Please split all valuables with family + Mary.

God please accept my soul. Gary Campbell

God bless with the [illegible]
