

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211-CP1

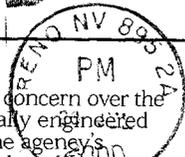

- All GE foods should be labeled so I am informed and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing to determine the long-term impacts to human health and the environment.

(Additional Personal Comments:)

*I am ~~very~~ very sensitive to many foods
It is important for me to be able to decide*

CHERYL ELLIS What is safe for me.
