

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food, to ask that the agency's current policies be changed, and to support all the points in docket #00P-1211/CPI

All GE Foods should be labeled so I am informed and have a choice.

GE Foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing

There should be a moratorium on GE Foods until long-term studies show they are safe for human health and the environment.

Commissioner Jane Henney  
Docket No. 00P-1211/CPI-1 A9:4

(Additional Personal Comments:)

*I notice this year <sup>that</sup> we have a lot fewer butterflies - could the genetically altered corn for corn borers be affecting this problem?*
