

Dear FDA,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I ask that the agency's current policies be changed, and to support all the points in docket # 00P-1211/ CPI, specifically:

- All GE foods should be labeled so I am informed and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing.
- There should be a moratorium on GE foods and crops until long term studies show they are safe for human health and the environment.

**GE Food Moratorium  
Petition**  
c/o Organic Consumers  
Association  
6114 Hwy 61  
Little Marais, MN 55614

Additional Personal Comments:

*Basically this GE is against natural life and should not be forced on the population for testing. We don't know the ramifications.*
