

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and support all the points in docket #00P-1211\CP1

- All GE foods should be labeled so I am informed and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing
- There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.

Commissioner Jane Henney  
 Docket No. 00P-1211\CP1  
 FDA Dockets Management Branch  
 (HFA-305)  
 5630 Fishers Lane, Room 1061  
 Rockville MD 20852

(Additional Personal Comments:) *The FDA shuts out nutritional/herbal remedies by requiring testing of prohibitive costliness. G-MO Food should be subjected to at least as rigorous of testing.*
