

Dear FDA,

In writing to express my concern over the FDA's regulation of genetically engineered (GE) food, to ask that the agency's current policies be changed, and to support all the points in docket # 00P-1211/CPI, specifically:

- All GE foods should be labeled so I am informed and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing.
- There should be a moratorium on GE foods and crops until long term studies show they are safe for human health and the environment.

GE Food Moratorium
 AUG 24 Petition
 c/o Organic Consumers
 Association
 6114 Hwy 61
 Little Marais, MN 55614

Additional Personal Comments: Protect consumers freedom of choice; these choices are not whims - they are based on 100 years of study & experience that GE has existed & are vital to our health
