

Dear FDA,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food, to ask that the agency policies be changed and to support the points in docket # 00P-1211/CPI, specifically:

- All GE foods should be labeled so I am informed and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing.
- There should be a moratorium on GE foods and crops until long term studies show they are safe for human health and the environment.

2000 GE Food Moratorium Petition
 c/o Organic Consumers Association
 6114 Hwy 61
 Little Marais, MN 55614

Additional Personal Comments: I believe that these three points are very valid. These genetically altered foods are poison to the planet and to us.
