

Dear Dr. Henney,

I am writing to express my
FDA's regulation of genetic
(GE) food. I request that the
current policies be changed
all the points in docket #C

- All GE foods should be informed and have a choice
- GE foods should not be "generally recognized as safe" and should have mandatory pre-market safety testing
- There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.
