

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211\CP1

- * All GE foods should be labeled so I am informed and have a choice.
- * GE foods should not be assumed to be generally recognized as safe" and should have mandatory pre-market safety testing
- * There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.

(Additional Personal Comments:) *Please guide the FDA in learning from other "modern mistakes." Let's keep food healthy, nutritious and NATURAL. Thank you.*
