

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211

All GE foods should be labeled so I am informed and have a choice.

GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing to determine the long-term impacts to human health and the environment.

Not in baby foods at all!
(Additional Personal Comments:)

Long-term - i.e. - intergenerational so reproductive and disease related impacts can be observed.

Commissioner Jane Henney
Docket No. 00P-1211 CP 110 03
