

Dear Dr. Henney,  
I am writing to express my concern over the  
FDA's regulation of genetically engineered  
(GE) foods. I support the agency's  
current policies regarding GE foods and I support  
all the actions taken to ensure the safety of  
all the foods we eat.

All GE foods should be labeled so I am  
informed and have a choice.

GE foods should not be assumed to be  
"generally recognized as safe" and should  
have mandatory pre-market safety testing  
to determine the long-term impacts to  
human health and the environment.
