Commissioner Jane Henney
Docket No. 00P-1211/CP1
FDA Dockets Management
Branch (HFA-305)
5630 Fishers Lane, Room 1061
Rockville, MD 20852

Dear Commissioner Henner:

We strongly support mandatory labeling of ALL genetically modified foods for sale in grocery stores, fast food chains, restaurants, etc... There should be strict regulations for comprehensive assessments of environmental risks that are associated with genetically modified foods. We do not know enough about this technology, no one has done long term testing. Assuming something is safe got our country a lot of Thalidimide babies. We do not endorse genetic modification and want to know if something we are buying has been!

Very truly yours,

Daniel and Arlynn Liebster
