

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211\CP1

All GE foods should be labeled so I am informed and have a choice. !!!

GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing to determine the long-term impacts to human health and the environment. !!

(Additional Personal Comments:)

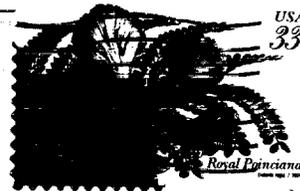

I refuse to buy Bt Corn at planting time '2001 until I know it is safe in both Debbie CADY for butterflies + humans + cows.
