[Message]

Dear Mr. President, Please do everything in your power to stop Monsanto from selling rBGH until adequate safety tests ensure our children's protection. The FDA should immediately suspend Monsanto's license to sell rBGH.

As a concerned mother and consumer I am appalled that any food is allowed to be sold with rBGH in it, considering the lack of information we have regarding the safety of this hormone! We have enough problems with pesticide residues on our produce,

and Genetically Modified foods in our food chain.

I find it ironic that the government sued the tobacco industry for deaths related to tobacco use, when the FDA and the US government is potentially killing us all (slowly) by exposing

98P-1194

c 797

us to neurotoxins, and carcinogens in the food we eat. Please  
do the right thing. Suspend Monsanto's license today. Thank  
you for your consideration in this matter.

Sincerely yours, Renata Aylward A concerned mother and  
registered voter.
