

Dear Commissioner Kessler;

It's time to stop the beef industry from turning cows into cannibals. The feeding of brains, spinal cords, and other animal tissue to beef and dairy cattle has been linked to the spread of Mad Cow Disease (BSE). *How many Americans must die before the FDA stops this deplorable and deadly practice?*

I join with the Humane Farming Association in calling for an immediate nationwide ban on the use of so-called "ruminant proteins" in cattle feeds.
