**RE: NEW WORLD HEALTH**

Dear Sir / Madam:

This is a 30-day notification of a statement of nutritional support for a dietary supplement. The product name is **Andrew Lessman's New World Health**. The structure / function claims on all sizes and configurations of this product are identical. They are as follows:

Green Tea contains powerful anti-oxidants called polyphenols that can possess a wide range of healthy benefits. **World Health** also contains Cranberry concentrate, an herb that has been employed by herbalists for centuries. Recent research has confirmed the healthful benefits of Cranberry in supporting urinary tract health. Moreover, Cranberry is an excellent source of powerful anti-oxidants referred to as procyanidins. **World Health** also includes high levels of our special organic Garlic concentrate to deliver the myriad of health benefits associated with that staple of the healthy Mediterranean diet. In addition, **World Health** delivers standardized extracts of Bilberry to support eye health and Milk Thistle with Silymarin to support liver health. Finally, **World Health** provides the powerful anti-oxidant benefits of standardized extracts of Red Wine, Grape Seed, Grape Skin and Citrus Bioflavonoids. The anti-oxidants in each of these standardized extracts targets and neutralizes a broad range of damaging free radicals and thereby supports the health of a variety of tissues, organs and systems within the human body.

Respectfully Submitted,

Shawn Tiller
