

October 29,00

I am writing in response to a letter I received from Farm Sanctuary Rescue & Protection Campaigns. This letter has informed of gruesome practices of abuse toward innocent and defenseless farm animals. Such animals are known as downed animals- often too sick to stand are made to suffer extreme pain and neglect only to end up being slaughtered for human consumption. I am writing in protest of such practices and to voice my outrage toward those who allowing such sick and inhumane treatment of these voiceless and defenseless creatures.

I am writing to those at the U.S Food and Drug Administration and begging you to really think of these animals and to realize that such abuse is wrong! Please grant Farm Sanctuary's petition to prohibit the slaughter of downed animals. Please use your power to stop unnecessary pain and suffering.

Docket Number: 98P-0151/CP1

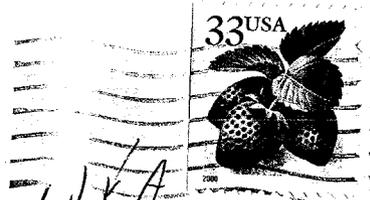

Thank you,

Jennifer Iurato
