Washington, D.C. 20201

Sept. 22, 2000

Dear Secretary Shalala:

As a small business owner and hearing health care provider, I write with respect to hearing aids. As the AARP has confirmed, hearing aids are highly effective but dramatically underutilized medical devices.

I am very concerned with reports that the Food and Drug Administration (FDA) has reportedly sent to you a proposal for revising the current regulations governing the dispensing of hearing aids in this country that would dramatically increase the cost of hearing health care services and restrict access to hearing health care providers. Please stop and carefully consider the impact that this proposed rule will have on the nation's hearing impaired and on the nation's small business hearing aid specialists. In particular, please ensure that any proposed rule meets the obligation of the Small Business Regulatory Enforcement Fairness Act.

Hearing impairment is a major health care concern. Please don't let the FDA put forth their proposed rule that would impede access to needed hearing health care services for millions of Americans. On a personal note, My father and Mother started our family business in 1959. Since his death in 1983 Mom and I have continued to serve S.E. Kansas and S.W. Missouri clients with Honesty and Integrity. Don't let this happen to us and especially our clients.

Very Truly Yours,
Brian K. Lowry- Hearing Aid
Specialist
