RE: Docket No. OOP-1211/CP1
FDA Dockets Management Branch (HFA-305)
5630 Fishers Lane, Room 1061
Rockville, MD 20852

Dear Dr. Henney,

I believe that genetically engineered food ingredients or crops should not be allowed on the market unless:

- Long-term* 1) Independent safety testing demonstrates they have no harmful effects on human health or the environment,
constitutional 2) They are labeled to ensure the consumer's right-to-know, and
3) The biotechnology corporations that manufacture them are held responsible for any harm.

I ask that the FDA's current policies be changed, and I support the points in Docket #00P-1211/CP1.

Sincerely,
