RE: Docket 96P0215

Dear Commissioner Kessler,

Please consider the Norplant petition with the greatest care. The claims by Wyeth Ayerst do not ring true. Norplant was tested on 55,000 women around the world, yet an estimated 50,000 are suing them because of the pain caused by their product.

How many more women have had to suffer because of this drug - women who remain unknown because they do not have access to legal rights or media outlets like the women in America.

I urge the FDA to take Norplant off the market and, thus, end it's victimization of women throughout the world.

Sincerely,

Sheila M. Wight
