Jane Henney, M.D., Commissioner
US Food and Drug Administration
5600 Fishers Lane
Room 1471
Rockville, MD 20857

Dear Dr. Henney:

I am very concerned about the overuse of antibiotics in livestock. I support the Center for Science in the Public Interest's petition to your organization which requests that you eliminate those antibiotics that are important for treatment to humans from sub-therapeutic use in animals, including growth promotion or disease prevention. The use of these antibiotics in animals is a serious threat to the effectiveness of those same drugs in humans. Please ban their use in animals immediately.

Thank you,

Loretta Dunne
