Commissioner Jane E. Henney  
5600 Fishers Lane  
Rockville, MD 20857

2343 '00 JAN -6 NO 47

Dear Ms. Henney:

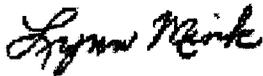

Both the Centers for Disease Control and the World Health organization have warned against the growing threat to the effectiveness of human antibiotics represented by their use in animal feed.

It is unconscionable that this practice continues to be allowed by your agency. Please take immediate action to end this egregious attack on the health and wellbeing of every American Citizen.

Sincerely,

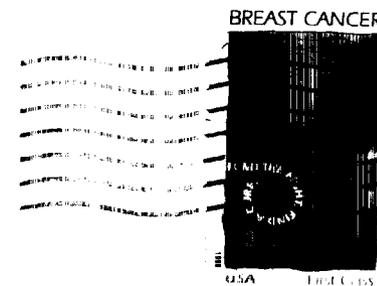

Arthur R. Mink
