Dear Ms. Henney:

I am writing to urge you to work for the prohibition of the addition of routine medically important antibiotics to meat packed in the US. Both the Centers for Disease Control and the World Health Organization support the ban already in place by the European Union.

Our food supply and thus the health of all our citizens, especially our children, is in your hands. Please use this influence to protect us from this known and serious health threat.

Sincerely,

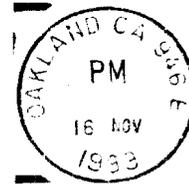

Rena J. Pasick, Dr.P.H.
