Commissioner Jane E. Henney  
Food and Drug Administration  
5600 Fishers Lane  
Rockville, Maryland 20857

Dear Commissioner:

It has recently come to our attention that more and more poultry farmers are using antibiotics in their feed to speed growth. We believe that this has promoted resistance of antibiotics to effectively treat bacteria.

Please prohibit livestock producers from routinely adding medically important antibiotics to animal feed. Thank you.

Sincerely,

Barbara and Joe Cushner
