message: Please follow Europe's lead and ban the use of antibiotics for animal growth purposes.
The economic benefits are being cancelled by the growing resistance of disease organisms in humans.

**Please ban the use of antibiotics in animals to enhance growth.
This only serves to further line the pockets of big business at the expense of all of us.
The growing resistance of human illnesses to antibiotics is a very serious consequence.
Many other countries recognize this!**

**Thank you,
Herb Walter**
