Jane Henney, M.D.
Commissioner
Food and Drug Administration
5600 Fishers Lane
Rockville, MD 20857

Dear Dr. Henney:

My husband and many other men of our acquaintance have benefitted from the use of saw palmetto.

We are strongly in favor of the FDA PROMPTLY approving claims filed for saw palmetto and the symptoms of benign prostatic hyperplasia; psyllium husk seeds and the risk of heart disease; folic acid, vitamin B6 and vitamin B12 and cardiovascular disease; and vitamin E and the risk of cardiovascular disease.

Yes, I copied the above words directly from Dr. Julian Whitaker's newsletter, Health and Healing, but you may believe me, we know the meaning of those words.

Many, many Americans have been outraged for many years by the FDA controlling our lives, and telling us what we may and may not use to take care of our health.

I enclose a copied picture of a child who, in 1992, was diagnosed with a lethal brain tumor. Two months after she was given brutal radiation and chemo treatments which damaged this tiny child terribly, a new tumor appeared. She was so debilitated, that her doctors at Duke University told her mother to bring her back in 2 months so that they could do another surgery. Fortunately, right then, the child was given Essiac, an Ojibway Indian herbal decoction which had just been smuggled into our free country. She took it faithfully every day, and when she had her MRI two months later, the tumor had disappeared. There have been NO RECURRENCES OF THE CANCER. She was three years old then ... she is almost eleven now. Because of the radiation, her hair never grew back, she is very short. and she is learning impaired. But she is HERE, and she is VERY LOVED!

Being a woman, you will have the inclination and the skill to start changing things. PLEASE, PLEASE DO !!!!!

I have a whole cheering section here in western North Carolina who will watch you win.

Don't forget us !!!

Alice and Ed Zane

Sincerely, Alice and Ed Zane
