Ref Docket #97N-0511

To Whom it May Concern:

We are sure that there are lots of problems involving the foods sold to consumers, but we do not want to see all orange juice pasteurized. We have been using fresh juice for several years from a very reputable grove that has a modern, up-to-date, sanitary juice operation. It appears that there must be some way to avoid putting these good people out of business.

We can go to this grove and buy fresh orange juice. We don't want to drink frozen or cooked orange juice when we can get the fresh juice.

Please take this into consideration when you are working on this matter.

Sincerely,

Donald R. Lorentz
Helen L. Lorentz
