Dear FDA:

RE" Docket # 94P-0036

I urge you to require food companies to include the trans-fat content on food labels. This fat, as you know, is more damaging than saturated fat, and identification on the label would make it so much easier to locate.

Older people especially, of which I am one, eat a lot of convenience food, and some of cannot see well enough to look through the very lengthy list of ingredients for the partially hydrogenated fats.

Thank you for your serious consideration of this matter.

Sincerely yours,

Marlea R. Warren

Mrs. Richard E. Warren
