Rockville, Maryland 20857

Dear Commissioner Henney:

My grandmother is a diabetic and I have just recently read where the consumption of added sugar has jumped 25 percent since 1984. As of now, there is no maximum recommended daily intake for sugar. I am asking you to require that all food labels to disclose how much added sugar there is in each serving of food, and what percentage of the maximum daily intake that represents.

Sincerely,

Anthony M. Cammarano
