Re: Docket # 94P-0036

I sincerely feel that the ²⁰⁷⁷ food ^{JAN 24 11:11 AM '00} supply should be as pure and natural as possible. I realize that processing and packaging does not allow for this.

I sincerely feel that whatever is added to the etc processed food should be "Clearly" labeled on the product sup trans fats. I am also against genetic engineered food of all kinds.

Please keep our food supply as pure & healthy as possible
