

Many say Planned Parenthood founder Margaret Sanger's ideology was similar to that of Adolf Hitler. Her goal was to rid society of it's "weeds" (minorities and Catholics) and she said the kindest thing a large family can do is to "kill one of it's members." (her very words! Contact STOPP for more info.) Her deadly legacy lives on in Planned Parenthood.

We urge you to become educated on contraception and its deception. Couples are excited to hear the truth! Natural Family Planning (NFP) classes are growing rapidly. Couples who practice NFP have been found to have stronger marriages. Some men have now chosen to have vasectomy reversals. (contact One More Soul). God's way - the natural way - is shining through the world's darkness and deception!

SPREAD THE TRUTH! HELP END THE CONTRACEPTION DECEPTION.  
PHOTO-COPY AND DISTRIBUTE THIS MESSAGE.

I am very strongly opposed to the OTC distribution of birth control pills & other chemical "contraceptives." They are dangerous & cause too many side effects for women & young teens in particular. Also, teens often confuse love with lust, & contraceptives exploit this. I urge you to hear comments on Dr. Janet Smith PhD who has done much research on contraception. She has an informative tape titled "Contraception: Why Not?" This is available from "One More Soul" (address on enclosed sheets) these <sup>(sheets)</sup> are being distributed for Minnesota in the St. Paul / Mpls. area. I have learned so much from this wonderful life-affirming organization!
