RE: GLUCOSAMINE BENEFITS

Dear Sir / Madam:

This is a 30-day notification of a statement of nutritional support for a dietary supplement. The product name is **Andrew Lessman's Glucosamine Benefits**. The structure / function claims on all sizes and configurations of this product are identical. They are as follows:

Andrew Lessman's GLUCOSAMINE BENEFITS™ delivers the most popular dietary supplement ingredient to support the health of your joints. Glucosamine Sulfate - the primary ingredient in **Glucosamine Benefits** - is an essential building block and vital structural ingredient necessary to support and maintain healthy cartilage and connective tissues in your joints. **Glucosamine Benefits** also includes Vitamin C and Manganese, among other nutrients, to help support Glucosamine Sulfate's role in the maintenance of healthy joint structure and function. Every day, we place serious demands on the tissues of our joints and it is simply common sense to provide sound nutritional support to target these hard-working joints.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "Rob Maffas". The signature is fluid and cursive, with a large loop at the end.
