Washington, DC 20204

Dear Sir/Madam:

This is a notification pursuant to 21 U.S.C. 343(r)(6) that Standard Process Inc., Palmyra, Wisconsin 53156-0904, is making the following statements:

- (1) Cyrofood maintains cellular health.
- (2) Carrots contain silicon to promote calcium metabolism.
- (3) Cyrofood boosts your energy and strengthens the immune system.
- (4) Both dates and rice have been used among the Chinese to help build strength. Bovine glandulars offer specific nutritional support for corresponding tissue. Mushrooms help support a healthy immune system. Alfalfa is a virtual storehouse of minerals and trace elements.
- (5) Cyrofood keeps your nervous system healthy.
- (6) Wheat germ contains essential fatty acids and B-complex vitamins to help the brain develop and function properly. These vital nutrients also assist in nerve transmission. Soybeans provide lecithin for healthy brain function.
- (7) Cyrofood supports skeletal and digestive health.
- (8) Oats are rich in silicon to increase calcium absorption and maintain bones and connective tissue. Peas exhibit a calming effect on the digestive process. Cyrofood also contains digestive enzymes to promote a healthy intestinal environment.
- (9) The bone marrow taken from the inside of the veal bone helps support healthy blood formation.
- (10) Whole desiccated animal tissues support the corresponding organs in humans.
