Dear Sir/Madam:

This is a notification pursuant to 21 U.S.C. 343(r)(6) that Standard Process Inc., Palmyra, Wisconsin 53156-0904, is making the following statements:

- (1) Calcifood provides a rich, whole food source of calcium along with its complimentary and synergistic nutrients formulated to enhance calcium metabolism and absorption, naturally.
- (2) Calcifood keeps bones and teeth strong and healthy.
- (3) Calcium is essential in keeping bones and teeth at the proper density to sustain daily wear and tear. The veal bone in Calcifood contributes multiple vital nutrients to help keep bones healthy. Carrots contain silicon to help strengthen connective tissue and promote calcium metabolism.
- (4) Calcifood enhances calcium metabolism.
- (5) Calcifood contains whole food co-factors that provide vitamins, minerals, amino acids, and enzymes, enabling the calcium to be absorbed and used by the body – not only to strengthen bones and teeth, but also to help keep the heart healthy, maintain nerve transmission, promote normal muscle growth and contraction, and support proper cell membrane structure.
- (6) The bone marrow taken from the inside of the veal bone helps support healthy blood formation.
- (7) Whole desiccated animal tissues support the corresponding organs in humans.

97S - 0162

LET 70909
5547

These statements are made for a dietary supplement containing a proprietary blend of defatted wheat (germ), carrot (root), date (fruit), veal bone, rice bran extract, and peanut (bran). Other ingredients include bovine bone, cellulose, honey, dicalcium phosphate, calcium stearate, and arabic gum. The name of the product is Calcifood®.

The information contained herein is accurate and Standard Process Inc. has substantiation that the statements are truthful and not misleading.

Sincerely yours,

Ann Holden
Standard Process Inc.
