*We drink only
bottled water!*

From: GARY C. SAVAGE & FAMILY

SHELBURNE, VT 05482

Consumers have the right to know what's in their bottled water. As a member of the Center for Science in the Public Interest, I support the FDA's proposal that bottled-water manufacturers be required to make available detailed reports of contaminants, just as public water utilities do. All bottled-water labels should also disclose where the water comes from.
