On April 17, 2000, Dr. Maves, Dr. Soller, and Ms. Bachrach met to discuss the agency's final rule for the labeling of OTC drug products (64 FR 13254, March 17, 1999). At the meeting, the CHPA representatives provided proposals for alternative ways for small "convenience packages" to comply with the requirements of the rule. They also committed to providing the Agency with their views as to how "convenience packages" could be defined.
