

Attention FDA

5622 '00 MAR 22 AIC:33

It came to my attention that the FDA is being asked to take away my right to sign a medical waiver before purchasing a hearing aid. Instead I would be forced to have a medical exam or hearing test. Here's my views and/or experiences on several related questions?

1. Should I be forced to have a medical exam and/or hearing test before purchasing a hearing aid? If so, should the FDA pay for the exam?

Why is the FDA meddling here? What special interest group is paying the FDA off? After your breast implant boondoggle (Dr. Kessler) you have no credibility at all this is just another special interest pay off!

2. Some people are physically unable to drive to a doctor or hearing specialist, or have had bad experiences they don't want to repeat. For instance ...

Many of the so called hearing specialists are simply preying on the older people hearing aids that should cost \$500⁰⁰ they sell for \$1500 - I know they did it to my father!

3. Should the FDA take away my Constitutional Right, affirmed by the Supreme Court, to decide for myself my medical exams and treatment?

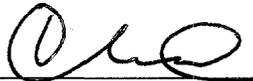

The FDA is the same group pushing to have tobacco listed as a ~~drug~~ drug and guns listed as a controlled substance they are a long long way from where they were meant to be. Frankly I see the FDA as a bunch of meddling little twerps w/ no social value at all!

4. Should I be allowed to purchase hearing aids by mail as I choose?

Not only should I be able to purchase hearing aids by mail I will (here or in Canada). Why is the FDA involved here at all? This is ridiculous
