

IT SOAP WOOD STAMP ARE ALMOST POLLUTION

Dear Dr. Henney,

FREE WHY NOT ENLARGE THAT AREA FOR PATENTSMORE

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food. I request that the agency's current policies be changed, and I support all the points in docket #00P-1211/CP1

THIS IS IT YES, I SUPPORT.

- 2 All GE foods should be labeled so that consumers are informed and have a choice.
- 1 GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing
- 1 There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.
