

1st Dear friend Henry MD, 1st
I bought
"WOW" Potato chips
and ate some - not
many. A few hours
later I had, for the
next 24 hours, horrible
pain in my
stomach and severe
diarrhea! I thought
I was going to die! I
could hardly ~~walk~~
walk.

MAY 15 PM 4:00

1st The pain was very 2
severe. It lasted
24 hours. After that
I was extremely
weak from it. I was
in from Olexia.
I have had potato
chips all my life
with no reaction.
Olexia is poison!
Other people have
said they had similar
experiences. There is
nothing I ate previously

17-year-old Charles Wainaina loves animals. His drawing shows many of the animals he tends to at the Ukweli Home of Hope in Nairobi, Kenya. He came to the home 3 years ago from the street where he was begging for food. Now Charles is able to do the things he enjoys most like play soccer, attend school and care for his rabbits.

to countries now I
I'll remain contact with
anyone who was ill. If
was from the Alestia - I
would stake my life on
it. The label on packages
stating seed effects needs
to be bigger. I didn't see it.
It needs to be on the
front. Better yet, eliminate it
stop the supplying. Mrs V. Gehlin
