

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food, to ask that the agency's current policies be changed, and to support all the points in docket #00P-1211/CPI

- All GE Foods should be labeled so I am informed and have a choice.
- GE Foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing
- There should be a moratorium on GE Foods until long-term studies show they are safe for human health and the environment.

(Additional Personal Comments:) WE KEEP HEARING GE FOODS WILL CURE DISEASE... WHAT WILL THEY DO TO THOSE ALREADY IMMUNO COMPROMISED THAT MIGHT NEGATIVELY IMPACT AN ALREADY BAD SITUATION??
