FDA Commissioner Jane Henney
Docket No. 00P-1211/CP1

Dear FDA:

I am writing to express my concern regarding the FDA's lack of regulation of genetically engineered food. It is inconceivable to me that the FDA would allow the food corporations the right to foist this experiment on the unwitting public. Genetically engineered foods should have been tested before they were ever sold, but to sell them without labeling to warn consumers is unconscionable.

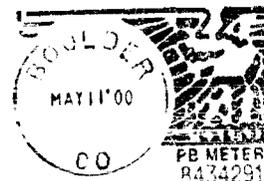

Please regard this letter as a plea for mandatory labeling of genetically engineered food and to express my support for the Citizen Petition, Docket No. 00P-1211/CP1. Thank you.

Sincerely,

Cynthia Olsen
