

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food and ask that the agency's current policies be changed:

All GE Foods should be labeled so I am informed and have a choice.

GE Foods should not be assumed to be "generally recognized as safe" and should have independently verified safety testing before going to market.

There should be a moratorium on GE Foods until long-term studies show they are safe for human health and the environment.

(Additional Personal Comments): I AM
VERY MUCH AGAINST these foods
UNLESS FULLY TESTED & IT IS
OUR RIGHT TO AT LEAST KNOW
