

Dear Dr. Henney,

I am writing to express my concern over the PM
FDA's regulation of genetically engineered
(GE) food. I request that the agency's
current policies be changed, and I support
all the points in docket #00P-1211\CPI-2000

- All GE foods should be labeled so I am informed and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing
- There should be a moratorium on GE foods until long-term studies show they are safe for human health and the environment.

Commissioner Jane Henney

 FDA Dockets Management Branch

(Additional Personal Comments:) *Children in our schools should be offered no GE foods or foods laden with pesticides.*
